

## GO FOR AN iPAD

TO GET TOTAL CONTROL OVER  
YOUR GLUING PROCESS

ERO uses an iPad as upgrade to traditional control panels. Lightweight, intuitive and convenient, iPads allow independent monitoring from any place.

Back camera which can take pictures with all the connected chances and possibilities.

Intuitive and easy-friendly interface

Easy and fast replacement in case of damage

Support is fitted with charger and security key.

Articulated arm that enables easy handling.

It can be placed on the machine or carry it around
